

CTC
INTERNATIONAL

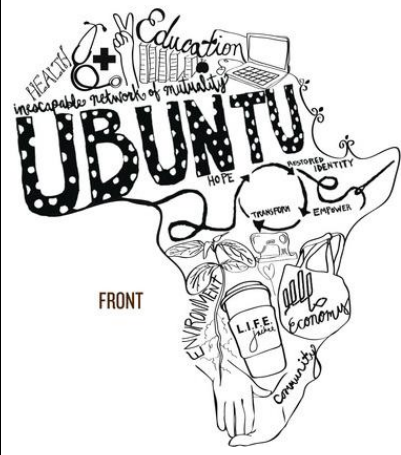

Comfort the Children takes pride in a holistic approach to community development. CTC initiatives focus on five areas, all interrelated: education, environment, economy, health and community. Each area directly impacts the community as a whole and each is connected to the success of the others.

CTC Land -11.5 acres off of the main road through Maai Mahiu known as "the HIV Highway." We have successfully connected to a sustainable water source, are growing a large-scale demonstration garden, nature trail, livestock co-op, poultry project.

Gardens in schools- Demonstration gardens, tree nursery, and environmental clubs for youth that teach sustainable farming methods and promote environmental awareness.

Social enterprise- farm-to-table café, products handmade by women to support the education of special needs children.

**Help feed the families and children of
Maai Mahiu, Kenya!**

With your support we can reach our goal of raising \$20,000 to expand this project and bring year-round food security and environmental education to the community.

Global Advocate Amara Watkin-Anson will travel to Kenya in April to continue work on this project.

"I believe in a world where everyone has the power to transform their lives and their communities through food.

Choosing food democracy, means choosing revolution. But it is a choice that will save this planet."
